

Nimish Gupta

Software Programmer

Summary

- Software Developer with 3+ years of experience in automating stuff and solving problems using required/ latest tech in the industry. A pragmatic programmer obsessed with learning good standards in programming. Learning by programming deliberately instead of programming coincidentally. Outgoing and detail-oriented, proficient at building and maintaining professional relationships.

Experience

2018-04 - present

● Lead Developer

Pesto.tech

- Build application portal having more than 200 students applying per day
- Decreased filtering through assessment time from 60min/student to 45min/n student by automating assessment round.
